

PREFERRED INSURANCE SUPPLIER

AB Phillips are the FTMA's preferred insurance provider and are experts in insurance, risk and financial solutions for the timber industry.

General Insurance

We provide high-quality general insurance cover with customised extensions to meet the timber industry's unique needs including:

- An errors & omissions extension that has the potential to protect your business against financial loss claims from a third party in respect to work you have carried out.
- An exclusive trade credit insurance facility that covers your business against losses incurred through creditor insolvency or non-payment of debt.

Workers Compensation

Our workers compensation renewal packages provide exceptional value through all-inclusive benefits designed to help you reduce claims and create a safer work environment for your employees.

Personal Insurance

Protect yourself and your family by ensuring your Life, TPD, Income Protection and Trauma insurance is adequate. Our financial planning team can help you manage your personal risk and help you devise a financial plan to help you achieve your financial goals.

Financial Planning

Our capability reaches further with a wider range of services; including mortgages and finance, accounting and taxation, superannuation and personal asset insurance. Financial Affairs, is proudly part of the AB Phillips group, delivering a complete insurance, people risk management and financial services for individuals and businesses.

Our financial planning products and services are licensed and operated by Financial Affairs Pty Ltd. (AFSL: 22154). Please consider the relevant Product Disclosure Statement prior to acquiring a product.

Servicing the Timber Industry for over 20 Years
