

PREFERRED ENERGY SUPPLIER

Choice Energy takes the boring world of energy and reduces it down to what businesses really care about – the dollars and cents.

Choice Energy provide a no obligation health check on your energy position and will provide solutions where necessary without the annoying sales pitch - if there's no opportunity to save, we don't suggest action.

"I was introduced to Lachlan Magee from Choice Energy by Clive Martella from M B Prefab who recommended installing Solar Power as he had found that Choice Energy had delivered what they had promised and I have no hesitation in recommending Lachlan and Choice Energy as every commitment and projection they have made to me has come to fruition."

Geoff Baxter, BB Truss & Timber, Managing Director
