

PREFERRED TIMBER SUPPLIER

Independent Hardware Group (IHG) is the largest channel of independent home improvement and hardware operators in this country and is integral to the continued growth of the independent market.

Established in November 2016, IHG is the combined entity of Mitre 10 and Home Timber & Hardware group networks and brings together over 700 'bannered' stores and 1000 'unbannered' independent stores. We are committed to helping independents thrive in their respective communities.

Our culture is built on being a low cost and transparent business partner to our members and our suppliers.

Our trading terms package is designed for independent members to thrive in their respective markets and stay ahead of the competition. Our rebates program is the most powerful component of the IHG model. We work with you to maximise the return to your business.

The program rewards volume and loyalty, the more you support the group, the more you buy through the group, the greater your rebates:

- Trade Volume Rebate – tiered rebate that rewards volume
- Group and Settlement Rebate – the most lucrative rebates for stores applicable to chargeback suppliers
 - Group – benefit from the buying power of IHG
 - Settlement – Supplier discounts passed straight through to members

It's a simple philosophy – the more you support the group, the stronger we become and the more our members get back.
